BodyWave

You. Your skin. Your well-being. The environment you live in. That's where the Q-med mission began: from the respect of the contents that "make life more beautiful".

Add Beauty to Your Life

From our well-proven experience. From the innovation that makes all our ideas exclusive. From the passion that has always accompanied our "designing and making beauty". A constant commitment to an ambitious goal: building perfect machines.

UV + BEAUTY TREATMENTS High performance

Can only one machine do all this?

**Buy one solarium,
make profit as if you bought
2 machineries
with 7 beauty
treatments!**

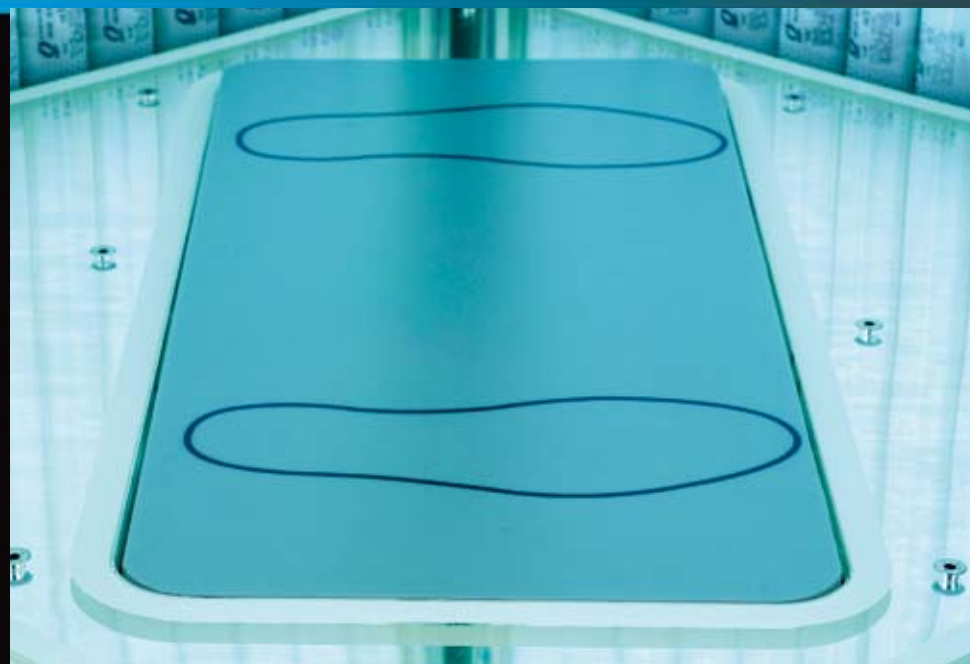

Q-med has combined the effect of three highly specialised beauty treatments with the solarium in only one x-traordinary machine. With only one investment, **BodyWave** will multiply your profits, allowing you to program many more sessions thanks to the possibility to offer 7 different types of beauty treatments.

Add Beauty to Your Life

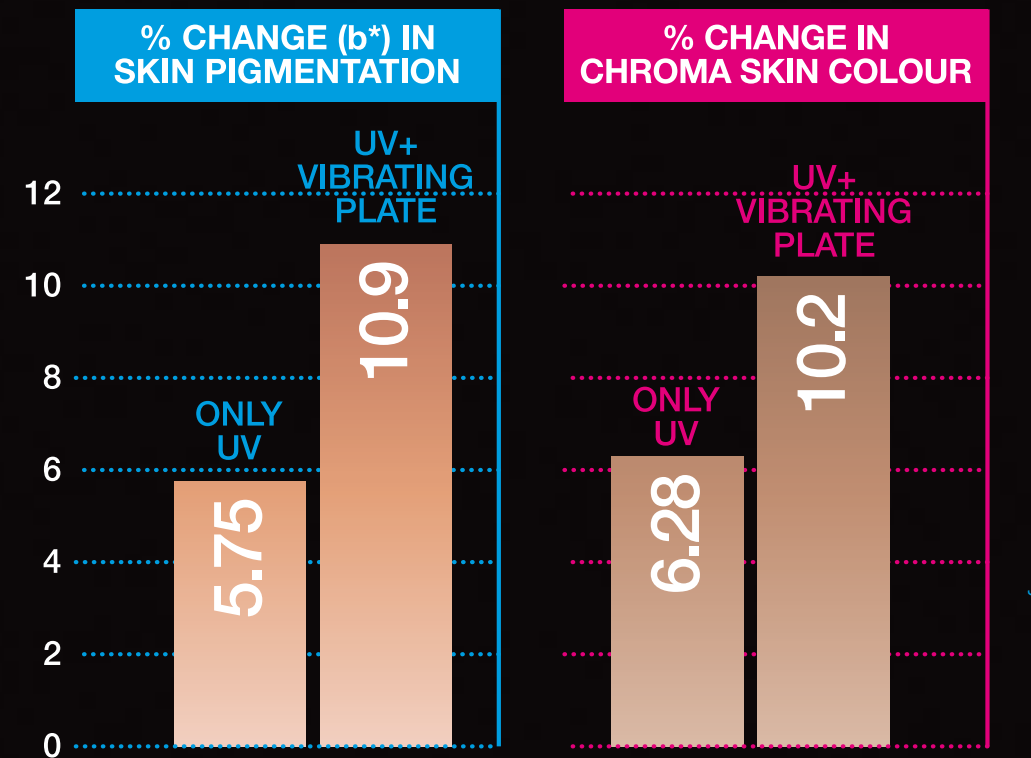

Tanning x 2

Independent testing conducted by the Cosmetology Department at the University of Ferrara - Italy, proves that the use of the medical vibrating plate during the tanning session in the **BodyWave** High Performance, significantly increases skin pigmentation, and intensifies skin color.

Tanning + Beauty 7 beauty treatments

It's all in the **BodyWave**

Figures are calculated on a session of max.10 minutes

The technology

“Ride the wave” and follow the BodyWave trend

The training method that takes advantage of “vibrations” developed in the 70’s to keep astronauts tone and fit during space missions in conditions of antigravity. The equipment was updated for sports and muscle rehabilitation activities. Today this method is the basis of the revolutionary BodyWave system.

Worldwide recognition

Millions of people all over the world have chosen this new form of training. Athletic trainers, doctors, gym instructors, physiotherapists and orthopaedists have all recognized the extraordinary effects of vibrations: one movement that brings incredible benefits to muscle tissue, the nervous system, blood vessels, bones, fatty tissue and cartilage.

BodyWave: the perfect movement for a perfect body

Excellent performance in an incredibly short time

BodyWave is a revolutionary patented and state-of-the-art hi-tech system that takes advantage of vibrations to work extraordinarily on the body: toning, modelling, relaxing... an all-over feeling of well-being that can be felt from the first session. **Maximum performance in an incredibly short time.**

Patented system

BodyWave and High performance: for the first time together in an intense tanning and beauty revolution

A new sun-tanning, beauty & relax goal is reached by uniting the BodyWave vibrations with the state-of-the-art High Performance sun-tanning system: in only 10 minutes you can sun-tan 3 times more than normal while obtaining numerous physical benefits:

- Anti-cellulite
- Slimming
- Gym

Increased revenues per unit for a tanning centre:

- same operating costs as UV unit
- higher selling price per session thanks to added value of BodyWave treatment

Innovative vibration

“Vertical vibration” is often the cause of an accumulation of lactic acid and articulation problems brought on by stress to the spine. **BodyWave goes beyond these limits with its revolutionary oscillating movement: two forces, one positive and one negative, originate from the ground outlining a sinusoidal wave along the spine.** The result is a feeling of comfort and well-being that are impossible to achieve with other systems without a specialist trainer.

“All-in-one” action

The oscillation of the pivoted plate of BodyWave transmits vibrations at variable frequencies that spread throughout the whole body causing an induced involuntary muscular contraction that creates a three-fold positive reaction:

Frequencies for diverse needs

A relaxing massage effect is obtained by using low frequency vibrations. The frequency variations of these vibrations stimulate drainage and tones all tissues. The oscillating stimulus:

- increases peripheral microcirculation
- better lymphatic drainage
- oxygenates and revitalizes connective tissue

- **neurological**, for a total feeling of well-being
- **chemical**, it balances the neurovegetative functions
- **mechanical**, for muscular toning induced by an involuntary contraction and for the tissue drainage that contrasts cellulite

Adding value to tanning

PERFORMS LIKE NO OTHER

- + Vibrating Movement
- + Microcirculation
- + Super Tan
- + 47% More Tanning
- 30% Shorter Session

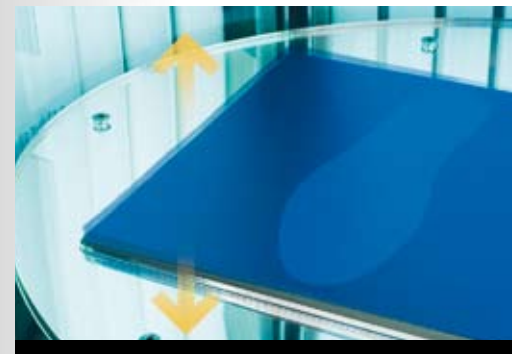

BodyWave + High performance = maximum relax + the most of sun-tanning

Add Beauty to You

Tanned like no one else

- **3 times the tanning power** compared to an average UV session due to increased microcirculation
- **tingle effect** for more intense tanning especially on the legs
- **time saving beauty:** 7 treatments in only 10 minutes
- **entertaining and enjoyable session:** thanks to the vibration, time passes quickly
- **luxurious tanning** to the "lull" of calming vibration
- **personalizing wellbeing treatments:** choose from 7 different programs
 - anticell + UV (only 50)
 - slimming + UV
 - gym + UV
 - only UV
 - only anticell (only 50)
 - only slimming
 - only gym

Slimming

BodyWave contrasts the accumulation of fat and the stagnation of liquids by mobilizing and acting on localized imperfections effectively, quickly and giving immediately visible results. Everybody, even the "laziest", can reach their ambitious "slimming goal" in a very short time. Thanks to the heat, liquids come out more quickly, more calories are burned and incredibly it increases cellular metabolism.

Slimming, Gym: 2 goals reached

Gym

BodyWave obtains extraordinary results in performance, strength and energy. Its action stimulates all the chemical functions inside the muscle making it more tonic and defined. In only 10 minutes, muscular strength increases by 30%.

Slimming

BodyWave contrasts the accumulation of fat and the stagnation of liquids by mobilizing and acting on localized imperfections effectively, quickly and giving immediately visible results. Everybody, even the "laziest", can reach their ambitious "slimming goal" in a very short time. Thanks to the heat, liquids come out more quickly, more calories are burned and incredibly it increases cellular metabolism.

Anti-cellulite, Slimming, Gym: 3 goals reached

Gym

BodyWave obtains extraordinary results in performance, strength and energy. Its action stimulates all the chemical functions inside the muscle making it more tonic and defined. In only 10 minutes, muscular strength increases by 30%.

THE MOST DESIRABLE TREATMENT GUARANTEES YOU THE MOST PROFIT

Anti-cellulite

BodyWave combats the stagnation of liquids by mobilizing them and acting on the cellulite. Thanks to the effect of low-frequency vibrations it also has a relaxing effect induced by massaging the spine and the bigger muscle groups and by the drainage action. The well-being goal is reached right away: the rays warm up, tan, pamper the body giving it an unforgettable feeling of comfort, harmony and beauty.

Q-med is avantgarde even in session controls.

BodyWave is an “intelligent” machine, designed to guarantee the maximum UV+Beauty result through the separate electronic management of the different treatments. A break through innovation makes the **BodyWave** easy to manage in the studio: with a tiny adjustment of the tanning studio’s software management system or with the new Q-med **BodyWave** control, tanning and beauty innovation is made simple.

Add Beauty to Your Life

BodyWave Control. Beauty + UV

Q-med has achieved excellence even in the management of its technology. With a new electronic control system, the **BodyWave Control**, you’re free to separately handle the programs available in the BodyWave 46 High Performance and the 50 High Performance. With three intuitive controls to choose from, UV, 3 different Vibration or UV+ 3 Vibration, just a simple gesture activates the individual session with cash or a pre-paid card.

DEEP KINETICELL

4 SYNERGIC ACTIONS
COMBINING WITH BODYWAVE

That's so
pure body

1 REDUCES WATER RETENTION:
Ivy extract,
Birch extract,
Asiatic centella extract

2 TONES AND FIRMS:
Sojabean extract,
Hops extract

3 STIMULATES METABOLISM:
Carnitine, Caffeine,
Teobromine, Theophylline,
Bladderwrack extract,
Cocoa extract

4 HYDRATES AND NOURISHES
Pomegranate extract

DEEP KINETICELL This revolutionary formula is designed to stimulate circulation while polishing and firming to reveal tighter, smoother, more hydrated skin.

DEEP KINETICELL Provides an innovative, kinetic stimulation of the skin, delivering 12 natural active ingredients for faster and longer lasting action, as well as superb absorption. The energy released from Deep Kineticell upon application, activates Nanospheres that time release the active ingredients for an efficacy beyond compare.

Q-med suggests use of Deep Kineticell during each BodyWave UV+Beauty Treatment and between sessions to enhance body sculpting results. Dermatologically tested and safe for use with the BodyWave.

XTRAORDINARY RESULTS IN JUST 2 WEEKS

- Revitalizes as it improves tone and texture
- Women tested said skin felt firmer and tighter*
- Panelists said that skin looked younger, healthier and more toned*

*based on consumer perception testing.

Ideal for any beauty reality

High performance
BodyWave

1 SOLARIUM

2 FITNESS CENTRE

3 BEAUTY CENTRE

4 SPA

4 times BodyWave. A wave of beauty, wherever you want

Add Beauty to Your Life

Extraordinary in the Solarium

BodyWave communicates perfectly with the innovative High Performance sun-tanning system. With the revolutionary BodyWave technology you can achieve improved microcirculation, better oxygenation of the skin and stimulation of melanocytes. Tanning performance is increased and more quick. 3 times more intense, 3 times more beautiful. Especially on the legs.

- **increase revenues per unit for a tanning centre**
- **offers choice for faster and intense tanning**
- **improve appeal of vertical units**

Ideal in the fitness centre

BodyWave is successful in the fitness centre: a young environment always ready to take on new and enjoyable training methods. Ideal for him and for her, the BodyWave + High Performance technology integrates perfectly with gym activities: it prepares the body for the fitness session by optimally warming up the muscle; it ends the activity in a relaxing way with an exclusive winding-down session... All while you are getting a sun-tan 3 times more intense.

- **better integration of UV equipment in a fitness environment**
- **great way to warm up for a fitness session**
- **eliminate lactic acid after an intense workout**
- **relaxes and gives a feeling of wellbeing anytime**

Innovative in the beauty centre

BodyWave introduces, for the first time in the beauty centre, the smallest and most innovative gym that has ever been conceived: it solves space problems and concentrates the maximum of beauty and sun-tanning in only 2 m². Thanks to its revolutionary oscillating movement, BodyWave works in perfect synergy with the different treatments of a beauty centre. A real "wave of well-being" that acts effectively on fat accumulation, by defining, modelling and sculpting the body in enjoyable sessions of only a few minutes.

- **an easy way to prolong massaging benefits while tanning**

Perfect in the Spa

BodyWave develops a new concept of relax in the spa with its perfect movement. Thanks to its revolutionary patented and state-of-the-art hi-tech system BodyWave carries out an extraordinary beneficial action by giving the body an unforgettable feeling of comfort and well-being.

- **perfectly integrates with other beauty treatments: a gentle low pressure UV system accompanied by relaxing vibrations**
